- All his achievements are too numerous to list.

CURRENT STATUS

- Associate Professor, Department of Surgery, University of Montreal
- Assistant Professor, Department of Neuroscience, University of Montreal
- Neurosurgeon, Sainte-Justine University Hospital Centre and University of Montreal Health Centre
- Researcher, Sainte-Justine University Hospital Research Centre
- Director, Pediatric Neurosurgery Fellowship, University of Montreal

ACCOMPLISHMENT

He has continued to contribute to the field of medicine through a significant number of book chapters, peer reviewed publications, manuscripts and published abstracts. There have also been many oral presentations to colleagues and at international conferences.

RECOGNITION

Daniel-Tassé Award, Department of Surgery, University of Montreal, 2013. Highest distinction in the Department of Surgery, awarded annually for a resident demonstrating excellence in clinical care, academic achievement, and teaching.

At John Abbott, Dr. Weil was an active contributor to the welfare of other students as a tutor in the biology department and in the writing centre of the English department. His concern for the welfare of others continued as his skills developed. He travelled on several occasions to Haiti as a participant in Project Medishare for Haiti, to perform neurosurgery and to train Haitian doctors. He has also led fundraisers over the last two years for the Department of Neurosurgery/Sainte-Justine Foundation and for several initiatives to improve care in Haiti.

Dr. Alexander Weil graduated from the John Abbott College Science program in 2003.
